## **World News**

Swedx has the pleasure of introducing the world's first TFT-LCD monitor imbedded in real natural timber with remarkable success.

## **World Class Design**

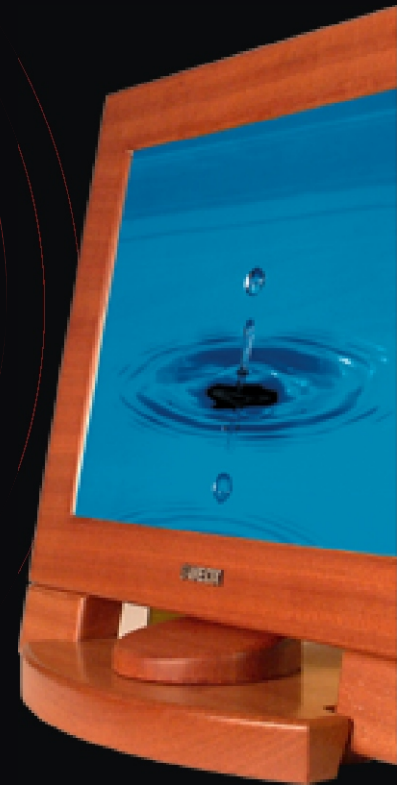

Swedx comes from Sweden, a country with rich experience in woodwork and high technologically products such as TFT-LCD monitors. Moreover, Swedx has worked with a world class team of international designers researching and developing this unique product.

## **The World's Thinnest Monitors**

In addition to the unique design and the use of natural timber, Swedx engineers and designers have worked together to produce one of the world thinnest TFT-LCD monitors, servicing the increasing demand.

## **The World's Most Environmentally Friendly Monitors**

One of the major contributor factors in this design is the fact it is environmentally friendly and recyclable, as it is possible to recycle the entire cabinet. Currently without competition, Swedx monitors are truly innovative in this area.

Two computer monitors are shown on the left side of the page. The monitor in the foreground is tilted at a steep angle, while the one behind it is upright. Both have wooden frames and blue screens. The background features a dark, circular ripple effect.

### **New Tilt Mechanism**

One of the smart things about the Swedx monitors is the new Tilt feature, a mechanism, which makes it very easy to get the desired angle. Just by dialing a knob at the base of the monitor you can safely adjust a comfortable angle, reducing stress.

### **Welcome To a New World**

Swedx IT products are a wonderful world and perhaps a perfect one. A world with more life, beauty, and feeling. Swedx is a new company to produce TFT-LCD monitors, but we believe Swedx will be the leader in this trend.

We invite you to Enjoy the Swedx World experience.

## 15" Flat Panel TFT-LCD Monitor

Model ID: XV1-15-BE3

Model ID: XV1-15-BE2

### Features:

- Embedded in natural timber.
- Ergonomic design.
- Environment friendly.
- High performance TFT panel.
- Wide view angel.
- Slim line, space saving, narrow bezel.
- Less electromagnetic radiation.
- Flicker free & no light reflection.
- Eye strain & Eye fatigue free.

### "Who Are You?"

Swedx monitors don't only represent the company. It represents every one who wants to make dreams come true. We believe it reflex who you are.
